

## How to Embed a Video in My Course

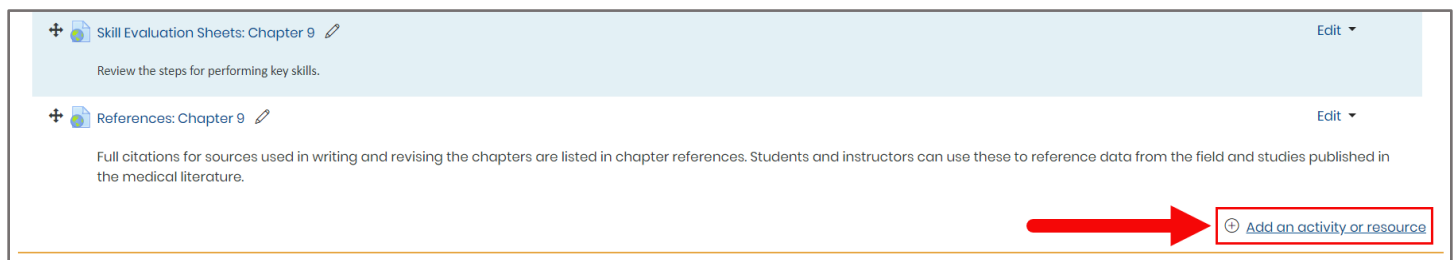

This document provides instructions on how to embed an external video within your Navigate course. **Please note: Due to file size limitations, a prerequisite for embedding a video will be to upload the file to an online media sharing site such as YouTube or Vimeo.** The following example demonstrates embedding a video using YouTube.

1. From the course homepage, navigate to the course section where you would like to add the video and toggle ON the course **Edit Mode** using the button at the top of the page.

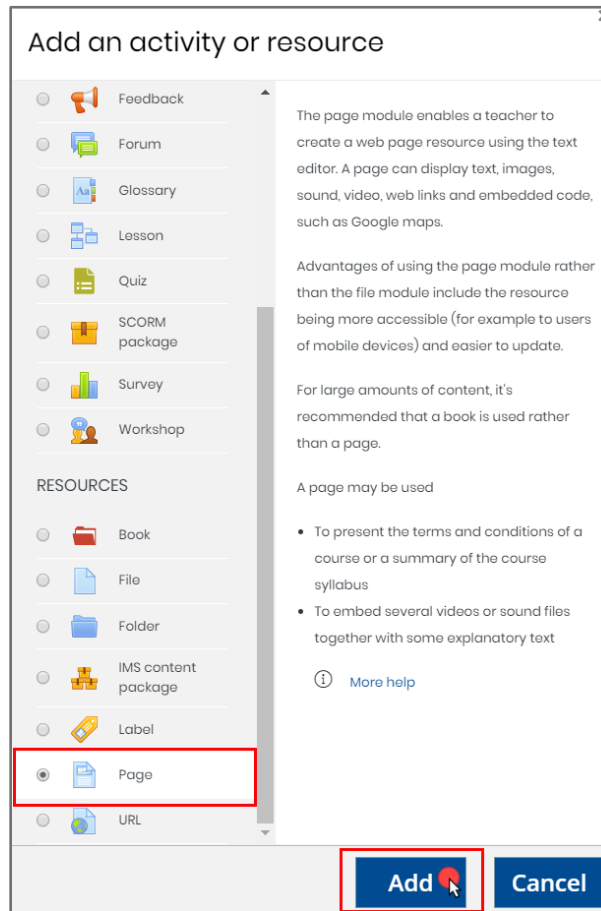

The screenshot shows the course homepage for 'Essential Access for Emergency Care and Transportation of the Sick and Injured, 11e'. The 'Edit Mode' toggle is currently set to 'OFF'. A red box highlights the 'OFF' button, and a red arrow points to it with the text 'Click to toggle on'. The interface includes a left sidebar with navigation options like 'Participants', 'Badges', 'Competencies', 'Grades', 'Dashboard', 'Calendar', and 'My courses'. The main content area shows 'CHAPTER 9 PATIENT ASSESSMENT' with teaching tools like 'Audio Book: Chapter 9' and 'Flashcards: Chapter 9'. The right sidebar contains 'COURSE METRICS', 'UPCOMING EVENTS', and 'ACTIVITIES'.

2. After the page refreshes to reveal editing options, scroll as needed to find and select the **Add an activity or resource** link below the section's contents.

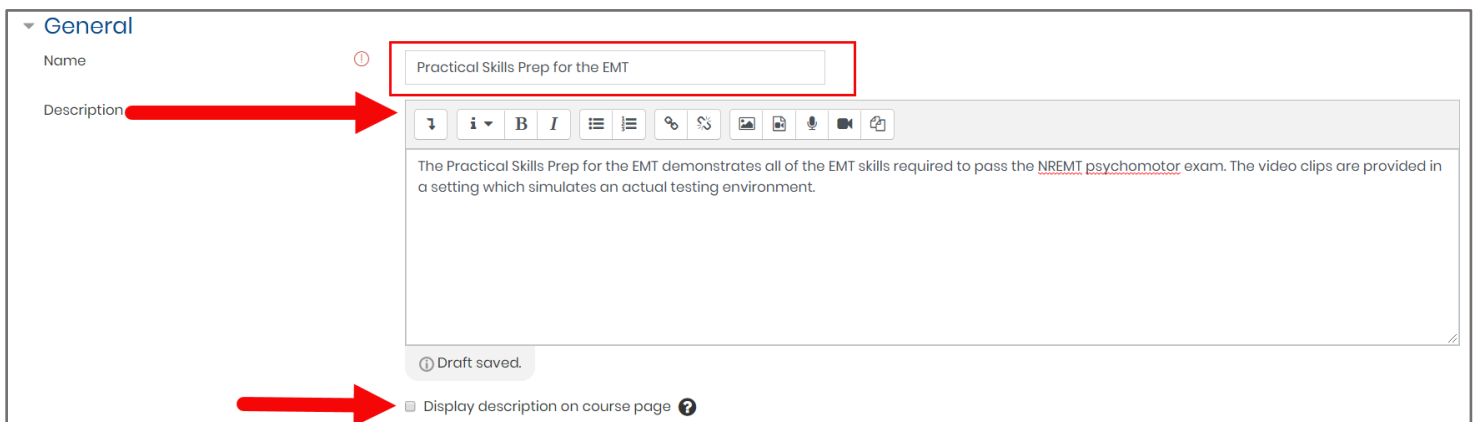

The screenshot shows the course content area with two sections: 'Skill Evaluation Sheets: Chapter 9' and 'References: Chapter 9'. Below these sections, a red arrow points to a blue button labeled 'Add an activity or resource'.

3. This action will open a popup window, listing the different Activity and Resource options available in the course. Under the **Resources** section, select the dial to the left of the **Page** option and click the **Add** button.

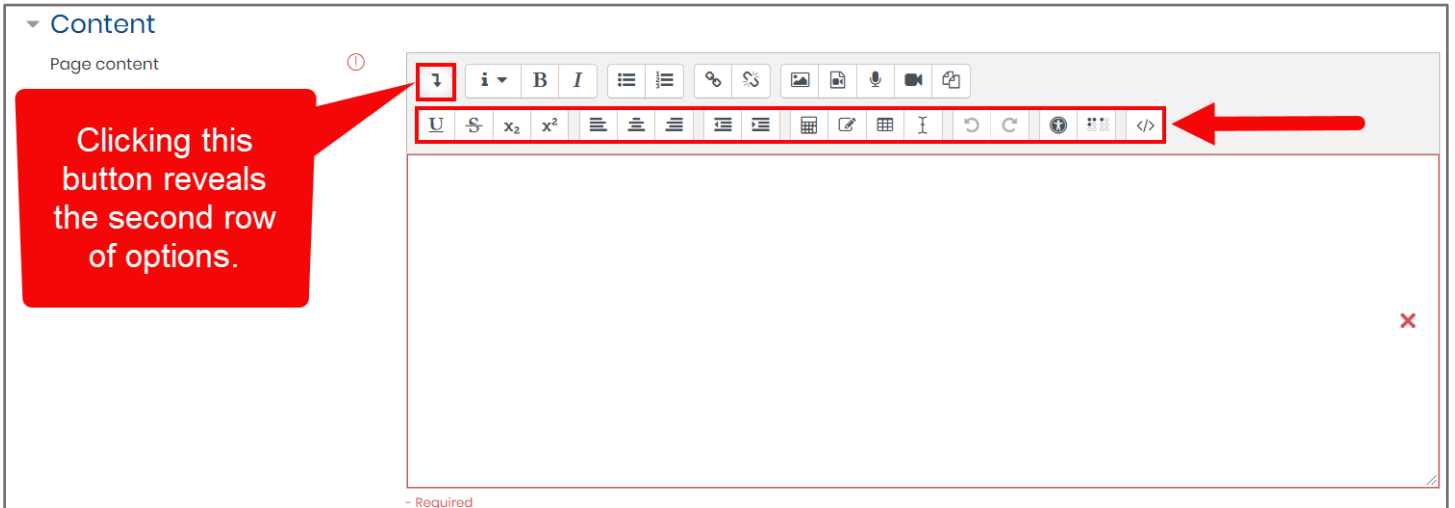

4. On the resulting settings page, proceed by entering an identifying name for the video in the **Name** field. You may also enter in a description in the **Description** field and choose whether to make this description visible on the course page by toggling the applicable checkbox directly below.

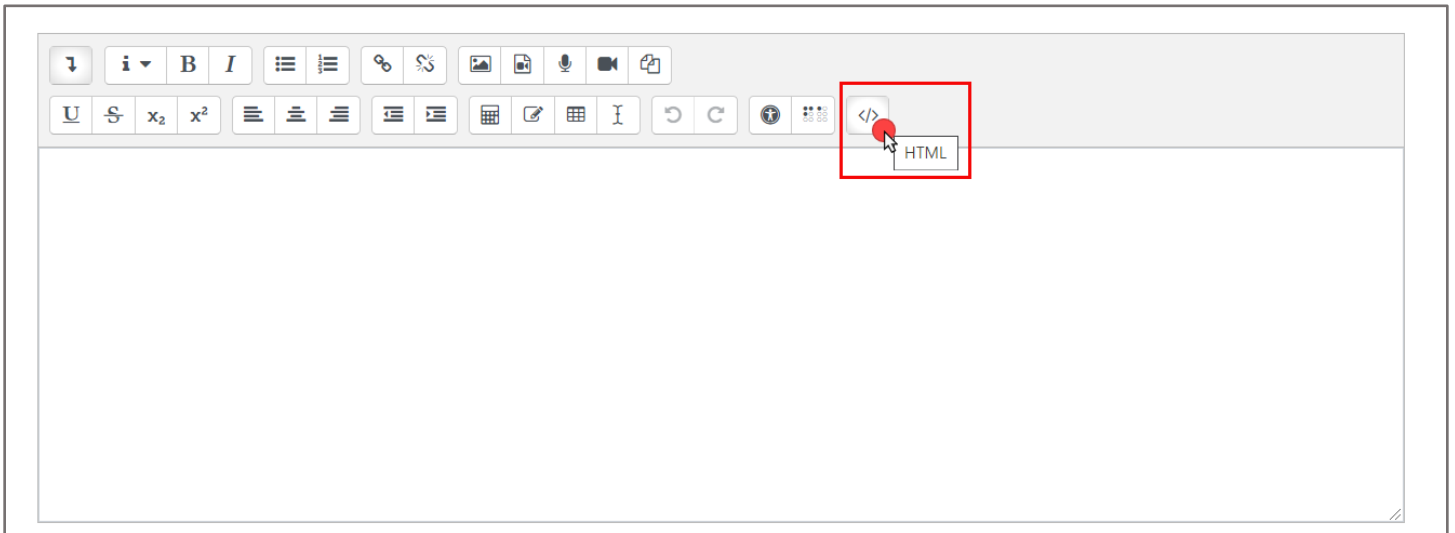

Technical Support: [www.jblearning.com/techsupport](http://www.jblearning.com/techsupport) | [support@jblearning.com](mailto:support@jblearning.com) | 1-978-443-5000 | M-F 8:30am – 8:00pm

5. Next, scroll to the **Content** section and click the first button at the top to **Show/hide advanced buttons**.

6. Then click the **HTML** button to the right of the new set of options that displays below.

7. Open a new window or tab in your web browser and navigate to the webpage where your video is hosted. Look for and click the **Share** option, typically located below the video.

Assess distal motor, sensory, and circulatory functions.

8. Then click the **Embed** option as your preferred method to share and copy the HTML text code that is provided.

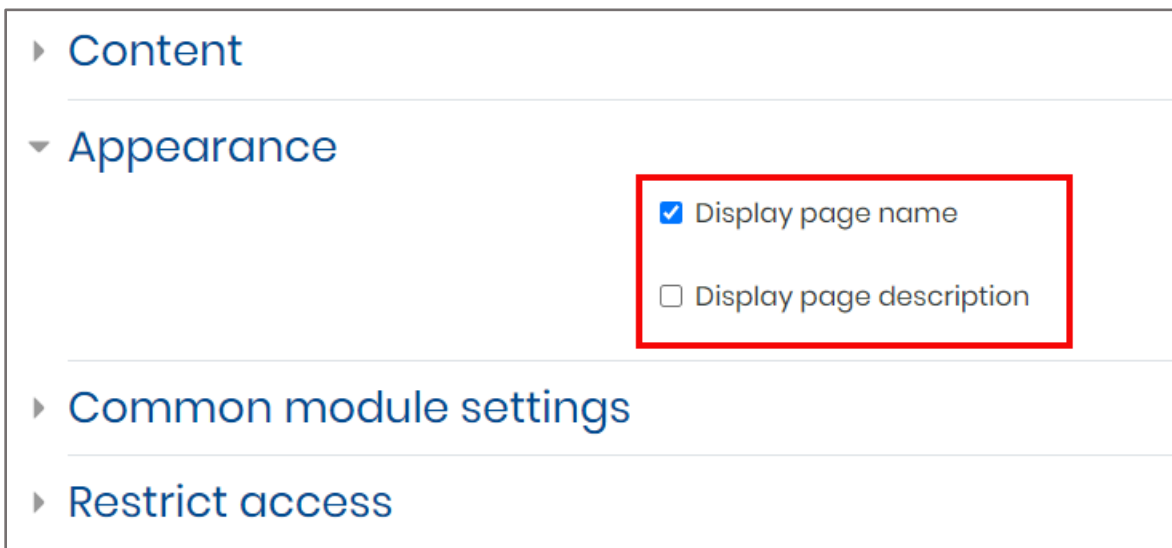

Technical Support: [www.jblearning.com/techsupport](http://www.jblearning.com/techsupport) | [support@jblearning.com](mailto:support@jblearning.com) | 1-978-443-5000 | M-F 8:30am – 8:00pm

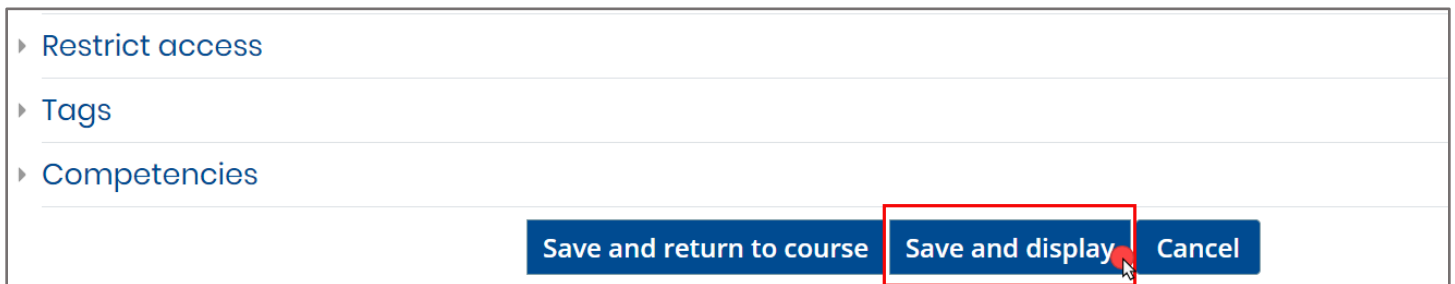

9. Return to the tab or window of your course and paste the copied text direction into the **Content** field.

10. Toggle the page display options under the **Appearance** section as needed.

11. Finally, scroll to the bottom of the page and select the **Save and display** button to review your newly added video.

12. If you would like to make further edits to the newly created page, such as a video caption, return to the **Page settings** using the **Actions menu** or gear icon and make changes to the **Content** section as desired.
